

### Mix tape/album Sketchbook Cover

For your sketchbook, I would like you to create an 8 ½" square, 11" square, or 8 1/2" x11" artwork for a mix album.

You will be listing the 8-15 tracks on the inside of the cover. Include the song title and artist.

Stuck for ideas?

- Consider creating a scene where each one of the songs is incorporated in the image.
- Inspiration could be drawn from the original artwork for the album, to interpreting a line or the lyrics to one of your selected tracks.

If you're really stuck, consider reproducing one of your favourite album covers using the grid system. I can help if you are unfamiliar with how to do this.

[This](#) is a link to some popular album covers, as is [this](#).

Use ANY media you like in the creation of this artwork.
