

“Old Things” Project

For this project, you will be taking a roll of film dedicated to “Old things”.

Old things are whatever you interpret them to be; but try and include the aging, weathering, and signs of time affecting the project.

You will print 4 prints, any size you like. They may be 4 prints of different parts of the same negative, or of 4 different negatives.

If you want to interpret “Old things” differently, please do so.

Each print will be worth 10 marks- 5 for content and 5 for quality.

You will also receive 10 marks for your contact sheet Based on the quality and consistency of your negatives.

This project is out of a total 50 marks
